

# REPURPOSING FURNITURE WITH NAILHEAD TRIM CHECKLIST

## SUPPLIES NEEDED:

- Pliers
- Hammer
- Nailhead Trim
- Fabric
- Scissors
- Gloves (optional by helpful)
- Tape Measure
- Utility Knife
- Staple Gun
- Staples (tons of them)
- Large piece of paper to trace pattern if needed
- .....
- .....

## NOTES:

## 8 QUICK STEPS:

1. Remove nailhead trim or excess fabric if possible
2. Cut your fabric to fit your chair and leave some extra around the edges
3. After stapling fabric to frame, trim the excess fabric and make sure that there are no staples sticking out
4. Unravel Nailhead trim and shape it to the furniture piece being careful to cut the excess piece
5. Use needle-nose pliers to hold the nail in place while you hammer the nail in every 4-5 nails.
6. Continue to shape in trim around the edges and use shorter pieces at the end to minimize waste.
7. Have patience with this section. There is a learning curve to nailing in the trim without cutting yourself and getting the curves right. You may have to go back and tweak the edges to get them to match both sides.
8. Enjoy your newly repurposed chair. You earned it.

## TIMEFRAME:

APPROXIMATELY 3 HOURS
