

3 INEXPENSIVE KITCHEN BACKSPLASH IDEAS

QUESTIONS TO ASK BEFORE YOU START!!

What is your budget?

What style of backsplash do you like the best?

Tin?

Marble?

Stone?

Ceramic?

TIP #1

SHOP ON CLEARANCE

Buy more than you think you need

Remember that if you go with traditional tile, there will be added expenses for grout, mortar, and edging.

TIP #2

PAINTABLE PANELING

This can be purchased in sheets of 4X8.

You will need to cut it to fit your area.

There will be extra expenses for nails and glue to apply the paneling to your wall.

You will need to use caulking at the bottom.

After painting the paneling, you will want to seal it to protect it from water and grease.

TIP #3

HIGH GLOSS PAINT WITH STENCIL

Skip the mortar or glue and paint the area with high gloss paint. Add a stencil to match your home decor style in a contrasting paint color to make it pop!
